Assignment Description:

As we read of the various sacrifice/offerings in Leviticus it appears that the sin offering (Lev 4) is for unintentional sin. Any deliberate sin, that is done with a high hand to result in the casting out of the offender. How could/ did a Hebrew believer who did sin intentionally get restored with God? What sacrifice would be done to restore this offender and atone for his sin

Write a 1-2 page essay, discussing this dichotomy in the Levitical Sacrificial system. Remember to obey the MLA writing pattern. This essay needs to comprehend the Levitical system and the Hebrew people. It is not to address at this time the atonement provided by the sacrifice of Jesus..
