### Bi 203 Homework Assignment #04

Assignment Number	#04
Assignment Distributed	October 29, 2015
Assignment Due	November 05, 2015

In Acts 21:4b we read:

*... And through the Spirit they were telling Paul not to go on to Jerusalem.*

There are some that argue that Paul should NOT have gone to Jerusalem and was disobedient to God because he went in spite of the multitude of warnings he received. Others have taken the position that Paul was being tested, and was to go even though he was being warned of the coming hardships.

Please write a 1-2 page paper including:

- 1) A discussion addressing each of these positions including Biblical references supporting both views.
- 2) A discussion presenting which view you believe is the correct one.

Please make sure that your position is observable and comments on the two options you have available to choose from.
